

meat 2023 **on**
62nd International Meat Industry Conference

Ana Vulić, PhD

Research title: Senior Research Associate

Position: Deputy Head of Laboratory for Analytical Chemistry

Affiliation: Croatian Veterinary Institute – Zagreb, Croatia

Occupation field: Food Safety and Quality

Short biography: Ana Vulić, PhD, senior research associate, Croatian Veterinary Institute in Zagreb, was born on December 7, 1980 in Zagreb, Republic of Croatia. She completed her PhD at the Faculty of Food Technology and Biotechnology, University of Zagreb in 2011. Since 2007 she has been employed in the Laboratory for analytical chemistry at the Croatian Veterinary Institute. The field of scientific activity is related to the research on the accumulation and persistence of residues of substances with an anabolic effect in the tissues of food-producing animals which significantly affect food safety. Also, a large part of scientific research is dedicated to other chemical contaminants that can be present in food, for example mycotoxins, which also significantly affect food safety. She published more than 120 scientific and conference papers, five book chapters and was involved in the implementation of several national and international projects.
