

Predrag Putnik, PhD

Research title: Senior research associate

Position: Assistant professor

Affiliation: University North – Koprivnica, Croatia

Occupation field: Food Science and Technology

Short biography: Prof. Predrag Putnik, has background in chemistry, food science, nutrition, and industrial food engineering. He is formally trained as scientific reviewer for the statistical analysis (research methodology) and serves as registered expert evaluator for the European Commission (Prima, Horizons etc.). He has +100 peer-reviewed scientific papers and book chapters, where most of the journals have the highest impact factor (Q1) for food science and technology. He co-edited books "Agri-Food Industry Strategies for Healthy Diets and Sustainability," Elsevier and Sustainable Functional Food Processing, MDPI. He is associate editor for Frontiers in Animal Science, review editor for Frontiers in Nutrition, and member of the Editorial Boards of FOODS and Nanomaterials MDPI, and Elsevier's "Food Chemistry," "Food Chemistry:X," "Food Research International," "Food Control," and "Food Engineering Reviews" from Springer. He received awards: Top 2% of scientist by Stanford University (2020-2021); Tanner Award (2021) for the most-cited paper in Comprehensive Reviews in Food Science and Food Safety (IF=12.81; 2/144 Q1); and Highly Cited Researcher ranked in the top 1% by citations for Agricultural Sciences by the Clarivate's Web of Science™ (2021-2022). <https://orcid.org/0000-0003-0342-6114>
