63rd International Meat Industry Conference

Nihad Fejzić, PhD

Research title/Position: Professor

Affiliation: University of Sarajevo, Bosnia and Herzegovina

Occupation field: Veterinary Epidemiology/Zoonoses

Short biography: Nihad Fejzić is a Professor of Veterinary Epidemiology at the Veterinary faculty - University of Sarajevo. His expertise covers epidemiology, veterinary public health, zoonoses, food safety, aquatic animal health, and One Health approaches. He has served as Dean of UNSA-VF and is currently President of REEV-MED, the Mediterranean network of veterinary education institutions. Internationally, he is an elected Council Member of CIVME (AAVMC) and has extensive experience collaborating with FAO, WOAH, and EU partners. He leads and participates in several regional and international projects focused on strengthening veterinary services, surveillance, zoonotic disease control, and food safety systems. Author of numerous scientific publications, he is widely recognized for advancing veterinary education, policy, and workforce development in Europe and the Mediterranean region.
