

Aleksandar Bajčić, PhD

Research title: Research Assistant

Position: Research Assistant

Affiliation: Institute of Meat Hygiene and Technology – Belgrade, Serbia

Occupation field: Quality Control and Food Safety

Short biography: Dr Aleksandar Bajčić conducts research in the field of food safety and quality, with a particular focus on animal-derived food products and animal feed technology. His scientific interests include the safety and efficacy of food additives and dietary fibers used in the food industry. He is also engaged in evaluating veterinary-sanitary and construction-technical conditions of food production and processing facilities, as well as assessing microbiological process hygiene in meat industry operations and retail environments. His work further explores innovations and the development of a food safety culture within the food sector.
