

Darya Tsibulskaya, PhD

Research title: Research Associate

Position: Research Associate in Department of Molecular Genetics

Affiliation: Institute of Virology, Vaccines and Sera "Torlak" – Belgrade, Serbia

Occupation field: Molecular Genetics, Bioinformatics

Short biography: Dr. Darya Tsibulskaya is a molecular geneticist and NGS data analyst with over 14 years of experience in human and bacterial genetics. She obtained her PhD in molecular genetics from the Institute of Gene Biology, Russian Academy of Sciences. Before joining the Institute "Torlak", she worked at the Laboratory of Clinical Genomics and Bioinformatics at the Veltischev Pediatric Research Institute in Moscow and also held a research position at the Skolkovo Institute of Science and Technology. Her scientific interests include microbial molecular genetics, hereditary disease research, and functional genomics. Currently, she is focused on studying aggregation factors in lactic acid bacteria and investigating diverse microbial consortia.
